Machine History

Machine History Inquiries are for informational purposes only.
Please be sure to check the DOCUMENTS tab for any additional changes that might not be reflected in the parts list.
You may not be able to add items from the parts list to your shopping cart if your account is restricted. If your access allows maintenance of a shopping cart, you can modify quantities on that page

Serial #

Enter the serial number (s/n) and click Search. The s/n must be entered exactly including capital letters, dashes, etc. There are no wildcards.

For s/ns newer than the year 1999 there should be a Parts List. The “as built” parts list is shown along with any changes made throughout the lifecycle of the s/n. We strongly recommend to always review all the files in the Document tab. Changes may be applicable in the documents that were not made electronically in the Parts List tab.

An error will appear if there's no Parts List on older s/ns. Click on the Documents tab to review the final data package.

From here you can click the boxes to the left of the part number and Add to Cart or Add to List on the bottom of the page.

<input checked="" type="checkbox"/>	RJ09AK05RJ	RING,MATING	EA	1	51A	NA
<input checked="" type="checkbox"/>	SE05AA06S	SEAL	EA	1	60A	NA
<div><div>Add To Cart</div><div>Add Selected To List</div></div>						

If there's items added to the Cart or List that don't have a price or aren't in the applicable catalog, an error message will appear.

Please be aware that parts added to the Cart or List from Machine History will add the quantity of the part that was used to assemble the unit. The quantity can be changed in the Cart or List.

The quantity shown in the mini-cart is the accumulated total of the quantity entered for each line.

To review the Documents click on the Documents tab:

There may be no Parts List, but always click on the Document tab to see any final data packages.

If you can't find the s/n you're looking for, please contact Customer Service for assistance.

View Indented BOM for Assemblies

In Machine History, certain part families that are manufactured/assembled will have a View button to the right on the Parts List tab. If not applicable, NA appears.

<input type="checkbox"/>	RJ09AK10RE	OBSOLETE REPLACED BY RJ09AA34R	EA	1	51D	NA
<input type="checkbox"/>	SE04AA53A	OBSOLETE REPLACED BY SE04AA53G	EA	1	60C	NA
<input type="checkbox"/>	SH01AK01750	SHAFT,HIGH SPEED,ASSY,BC&D BUI	EA	1	A130	View

Click the View button to review indented BOM for that item.
